

Adding More  
Power To GoldMine

ZipCodes+®

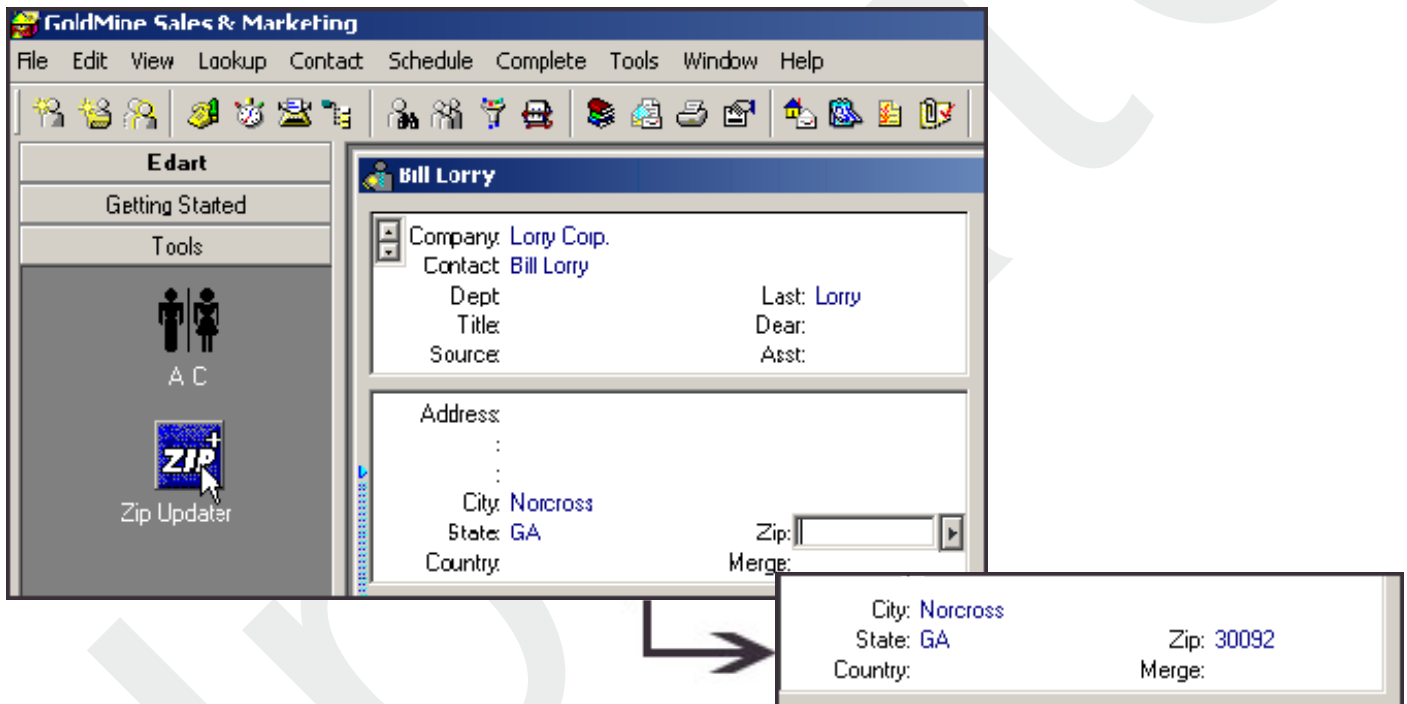

## Zip Code Utilities for GoldMine

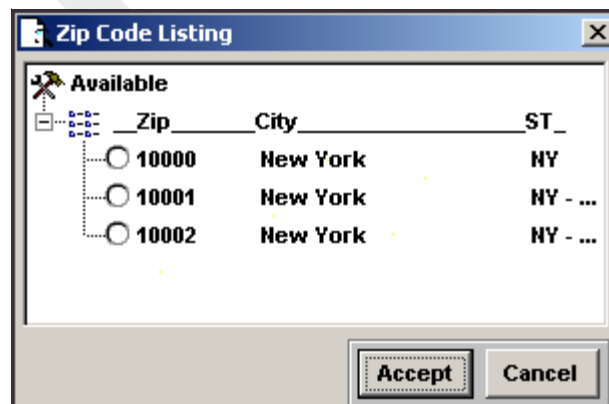

**Computer Control Corporation** has recently designed a very powerful utility that will add some real **ZIP** to GoldMine. **ZipCodes+®** consists of three tools (**Updater®**, **AC®** and **GoldCodes®**) which, when used together, greatly increase the Zip code validation feature of GoldMine. All three tools are included when you purchase **ZipCodes+**.

**Updater®** is a utility designed to, with one command, scan your entire GoldMine database looking for records with blank Zip code fields. **Updater** matches the City and State on each of these records with your current Zip Lookup list and updates the Zip field.

**Updater** also has the special ability to validate in *reverse*. That is, enter a city and state and **Updater** will provide the Zip code. Simply enter the City and State and Updater will search your Zip Lookup and populate the Zip field with the appropriate code.

Should there be more than one Zip code assigned to a city/state combination (New York, NY, for example) **Updater** will provide a list of ALL zips associated with that city/state combination.

## Zip Code Utilities for GoldMine

**AC**<sup>®</sup> : it's never been easier to add -- and manage -- Additional Contacts than by using this utility. It enhances the Additional Contact feature in GoldMine with several very useful (and often requested) functions. When you add a contact to a record, **AC** fills in Address, City State, Zip, even Phone number fields based on the information in the parent record. Create By and Create On information is automatically placed in the Notes field.

To make this process even easier, you can click on the conveniently located Create button and add as many Additional Contacts as you like.

**Contact at Hollingsworth Ltd.**

**Contact**

Name: **Jack Chapin**

Title:

Ref:

**Create**

**Address**

**12337 E57th Street**

**Suite 239**

**17th Floor**

City: **New York** State/County: **NY**

ZIP/Postal Code: **10001** Country:

**E-mail:**

**Phone:** **Ext:**

**FAX:**

**Mail Merge**

**Dear:**  **Mail merge/codes:**

**Notes:**

**Created By: MASTER**

**Created On: 09/17/2002**

**OK** **Cancel**

Also, **AC** has the unique capability of validating the Zip field based on a city/state combination OR validating city/state based on a Zip value (try doing that with GoldMine!).

ZipCodes+®

## Zip Code Utilities for GoldMine

**GoldCodes®** is an up-to-date US Postal Service Zip Code database for use with GoldMine recently configured by Computer Control Corporation! It is compatible with all versions of GoldMine from 5.0, to 6.7. The basic version of this zip code transfer set is a good substitute for the original FrontRange Solutions offering which is now out of date.

You can purchase the zip code listings by individual State, by Region or for the entire country. You'll get 3 states with the basic **ZipCodes+** package (\$74). Each additional State costs \$10. You can buy a Region (e.g. New England) for \$50. The entire country is \$100. This file, which can be purchased as a transfer set and directly loaded into your copy of GoldMine, is updated on a quarterly basis. Take a look at the table below for pricing, including update subscription fees.

### Heads Up:

*If you have previously purchased a zip code database, or if you have been building your own, adding this database may create some undesired duplication. This duplication can be prevented by deleting existing zip codes prior to installing the new ones. For a small fee, we will even do it for you.*

## The Bottom Line

Buy **ZipCodes+**® for \$74 and get the features of the **Updater®**, **AC®** and **GoldCodes®** (3 states). *Additional States, Updates and Annual Subscription* offers are listed below.

Item	Initial Price	Quarterly Updates (Each)	Annual Subscription
<b>ZipCodes+</b> (Includes 3 States)	\$74.00	\$15.00	\$60.00
Additional States (Each)	\$10.00	\$ 5.00	\$20.00
Region (New England, Mid-Atlantic, Southeast, Mid-West, Mid-South, Rocky Mt., West)	\$50.00	\$20.00	\$90.00
United States	\$100.00	\$40.00	\$200.00

Contact us today (see Contact info below) to find out how to kick your GoldMine up a notch!  
**ZipCodes+** -- one GoldMine Add-On worth its weight...
